GOV. F. D. GARDNER SENDS A MESSAGE TO BOYS AT FRONT

WORD WILL BE CARRIED BY UNITED WAR WORK CAMPAIGN VOLUNTEERS.

BACK THEM UP HERE AT HOME

Imperial State Will Oversubscribe Its Quota of \$5,000,000 in One Great Campaign Nov. 11, 1918.

"To Missouri Boys: I extend to you the heartiest and tenderest greetings. The people of the state never were so proud of their boys as they are those of their sons now in France and Italy making the supreme sacrifice for the maintenance of American Liberty, and the extension of its divine principles and blessings to mankind everywhere. You are indeed 'Soldiers of the Cross' and makers of a better day and a brighter civilization for God's people—the race of mankind everywhere.

"We at home are making relatively insignificant sacrifices for the great cause for which you are fighting, but God helping us we will do all we can to back you up throughout the war and until victory, acknowledged and conceded victory, crowns your efforts. We know you are going to whip the super-criminals of all ages to a 'frazzle,' and not leave one to advocate the hellish cause of the Hohenzollerns.

"God bless every one of you."

The above is the text of a letter written by Gov. Gardner, Missouri's chief executive. The message will be borne abroad by Cass Connaway, an Indianapolis lawyer, who is giving his service for the period of the war.

He will visit the huts, hotels, shelters and dugouts of the Y. M. C. A., the Y. W. C. A., the War Camp Community Service, National Catholic War Council (K. of C.), the Jewish Welfare Board, American Library Association and the Salvation Army—the seven accredited welfare agencies that have joined in a United War Campaign, Nov. 11, 1918, to raise \$170,500,000 to carry on their work for soldiers, sailors, and marines at home and abroad.

Wherever he comes across a man from Missouri, Connaway will give him the home folks' greetings.

LOW PRICES TO OUR BOYS

Our Fighters "Over There" Can Buy Cheaper Than We Can Here.

A telegram from New York says that hereafter articles supplied to our fighting forces abroad by the Y. M. C. A., the Knights of Columbus, the Salvation Army and the other four organizations making up the United War Work Campaign, will be sold to the boys at exactly the same price as they are sold at the Army canteens.

The boys will thus be supplied with articles at exactly the same price as if supplied by the Quartermaster, which means the exact cost of the article in America.

As an example, cigarettes that sell in Missouri for 15 cents per package will be supplied at the huts for 9 and a fraction cents. Smoking tobacco that sells for 5 cents in Missouri will be sold for a little more than 4 cents there.

This is because the Government will carry the goods free of freight charges. Heretofore the freight charges had to be added to the cost of the goods, which made it appear that the organizations were making a profit, when as a matter of fact the loss was considerable.

Thus, every cent that is contributed to the United War Work Campaign will do double duty. It will buy more in France than it will in America, and your boy's dollar will buy him luxuries that he might have to do without if this fund is not raised promptly.

MISSOURI SETS THE PACE

At National Conference Pledges Over-subscription for United War Work Campaign.

The Missouri district managers of the United War Work Campaign, who attended the national conference at Chicago, pledged that Missouri would raise 50 per cent more than its quota of \$5,000,000 for the fund during the week of Nov. 11-18.

When the Missouri district managers made their pledge to Dr. John R. Mott, the executive head of the seven united organizations that will have the dispensation of the fund managers from other states followed Missouri's lead and pledged large over-subscriptions.

R. A. Cassidy of Baltimore is the campaign director of Missouri. He has an office in the Third National Bank Building, in St. Louis, and is in daily conference with Chairman Hinton and the other officers who are working to make Missouri lead in the glorious work.

NOTED HEALER COMING TO CHESTER, ILLINOIS MONDAY, NOV. 11, 1918.

One Day Only—Sundown or Fair
Noted Healer's Work Astonishes Everyone—Amazing Recoveries Reported
—Wherever—His Mission a Labor of Love.

HEALING GIFT BORN WITH HIM.
"Among the many remarkable features about Rev. Dr. Hawkins, the healing genius of modern times, is the extraordinary amount of attention he attracts everywhere he appears. The crowds that have been flocking to him have simply been enormous. The hotels in Galesburg, Springfield, Decatur, Quincy, Champaign and other cities would often wish to close their doors. These seemed already more than could be accommodated. Sufferers would come from far and near, all with ailments of one sort or another. All were treated. None were turned away—be they rich or be they poor."

REV. DR. HAWKINS.
"Better Known as the 'Healing Genius.' Because of the Great Numbers He Has Healed. Rheumatism—Throws His Old Crooked Cane Away and Walks, Though Past 80.—On leaving the Healer's Treating Rooms and walking briskly, pushing his way through the waiting crowd on his way out, aged Dr. Hamilton, East St. Louis, Ill., was heard to exclaim: 'I never felt better in my life. You folks saw how I came up—look at me now. I feel that I could jump across the street and fly.'"

Another Case.—Miss Lottie Bush, Reservoir Heights, Ill., suffered so with rheumatism she had to be turned in bed. She could not move or feed herself; no one expected her to live, for nothing had cured her. Her doctors said she had no blood—it had all turned to water. However, without seeing the patient, through the silent or distant healing by Rev. Dr. Hawkins, Miss Bush soon jumped out of bed, shouting and praising the Lord for her "miraculous" recovery.

Gallstones.—Mrs. Mary C. Allen, 508 Seventh avenue, Peoria, Ill., suffered agonies for more than twenty years with violent attacks of gallstones and a complication of other diseases. She had tried doctor after doctor only to continue to grow worse. She was operated on twice, but it did not cure her. She grew despondent and felt she could not live. Yet in one treatment from Rev. Dr. Hawkins she became as well as ever, and a few days later pronounced herself permanently cured.

Stomach Trouble.—Mr. T. B. Hanna, 208 Jackson street, Peoria, Ill., suffered everything for forty-five years with the worst kind of Stomach Trouble, Constipation, Nervousness and Disorders. He had tried doctor after doctor only to continue to grow worse. He was operated on twice, but it did not cure her. She grew despondent and felt she could not live. Yet in one treatment from Rev. Dr. Hawkins she became as well as ever, and a few days later pronounced herself permanently cured.

Eye Trouble.—Mr. W. H. Campbell, Cayuga, Ind., suffered everything with eye trouble; could get no cure. Came to Rev. Dr. Hawkins. Says: "One treatment did the work of restoring my sight and I feel that other sick folks may be healed as I was."

There is no use allowing your lack of understanding to keep you away and prevent you from being healed. Come, investigate and convince yourself. There are more things even in this world than man has ever dreamed.

What Is This Peculiar Power?—Committee after committee of worldly scientists, from Bible times down to the present, have bent every effort to discover, if possible, the nature of this healing power. "It is a Divine Gift," says Rev. Dr. Hawkins. "Power to heal the sick and afflicted comes from above. It is a Divine Gift. Without the help of God, I could do nothing. I am only an instrument in His hands." Let the doubters doubt, and he scoffers scoff, but the truth is mighty.

Is a Friend to the Poor and Afflicted—A Grand Opportunity.—Sick folks, see the Healer on his visit to our city. You may have the golden opportunity to regain the greatest of all human blessings—Good Health. Take advantage of it while you have the opportunity. If you don't you may regret it.

The Healer's work is sustained by the free-will offerings of the grateful people who are free to give to his expenses, as they feel they can afford—little or much—that rests with you.

All Things Possible With God, You May Be Healed.—No matter what your ailments may be, and how often your case has been pronounced hopeless, you may have the opportunity to regain the color in your cheeks, the sparkle in your eyes, the smile on your face, and the joy in your heart that says so much and means so much—that bloom of human perfectness.

Prefers Difficult Cases.—Rev. Dr. Hawkins says: "I prefer to treat the difficult cases, those that have utterly refused to yield to any other treatment whatever. Consultation free. No medicine or instruments used."

Large Crowds Expected.—Call early. Patients from a distance or out of town will also receive prompt attention to return home the same day. Remember, one day only, regardless of the weather. Attendances will direct all to the Healer's Treating Rooms.

The Healer himself welcomes all sufferers to come to him on that day, rich and poor alike.

St. James Hotel, Chester, Ill., Monday, Nov. 11, 1918. He will be treating until 3 p. m., on this one day only. Married ladies must come with their husbands, and children with both parents. Helpless invalids, those unable to call, may hear from the healer from

his treating rooms by addressing him at Rev. Dr. Hawkins, Room 404, Great Northern Hotel Bldg., 20 W. Jackson Blvd., Chicago.

The healer welcomes all to come to him at Chester as he cannot come to Farmington, Mo., to us.

WAR-RISK INSURANCE

October 6, 1917, is a historic date in the annals of this Nation and of the great world war, for it marks the beginning of altogether the wisest and most beneficent provision for the dependents of soldiers and sailors in time of war ever made by a nation in the history of the world.

Backing Up Our Fighting Forces.

It is fitting to commemorate this significant anniversary today, in the midst of the Fourth Liberty Loan campaign. A large share of the six billion fighting dollars we must mobilize to back up Pershing and his gallant men is going to pay family allowances, Government compensation benefits to our heroic soldiers and sailors and those dependent upon them. Sustained by the assurances of the humane and generous provisions of the War-Risk Insurance Act, America's manhood is enabled to go forth to battle stout of heart and with unwavering confidence.

The administration of the act by the Treasury Department through the Bureau of War Risk Insurance during the past year constitutes one of the big war tasks of the Government.

Allotments and Allowances.

In the twelve months just ending the bureau has mailed more than six and one-half million checks in payment of allowances and allotments, representing a total disbursement of almost \$200,000,000 for the care and maintenance of the families and dependents of our fighting men.

These wise and just provisions reach to every corner of the land. Approximately one million checks a month are now being mailed regularly to maintain this protection.

Compensation for Death or Disability

The act also provides that liberal compensation benefits, without cost to the soldier, shall be paid for death or disability incurred in the line of duty, and in addition that every man wearing the uniform, who desires to provide additional protection for his loved ones, may take out not less than \$1,000 nor more than \$10,000 of Uncle Sam's insurance against death and total permanent disability.

Uncle Sam's Insurance

In the year past the Bureau has written nearly thirty-five billion dollars of this insurance, or approximately as much ordinary life insurance as there was outstanding with all the life-insurance companies in the world at the beginning of the year. Our Army and Navy are more than 300 per cent insured and new applications are now being received for more than a billion dollars of this insurance per week.

The Bureau has made awards and is paying monthly compensation on more than 5,000 death and disability claims, and it is paying monthly installments of insurance on more than 9,000 insurance death claims.

The Achievement of One Year

In the performance of this three-fold task the Bureau has within the year handled nearly three million nine hundred thousand insurance applications and more than three million eight hundred thousand allotment and allowance forms, and it has been necessary to prepare and maintain under constant control more than twenty-six million separate individual card records. The Bureau has received and answered more than three million letters.

From a small organization of twenty persons working in the basement of the Treasury Department one year ago, the Bureau has grown until it now has a working force of 13,000 employees occupying thirteen buildings in Washington.

Safeguarding the Soldiers' Kin

The Treasury Department has left nothing undone to promote and improve the efficiency of the Bureau in its vast work, and to reduce to a minimum the inevitable errors and delays incident to carrying out so large a mass of details. It is the aim of the Treasury Department to make the Bureau of War Risk Insurance the most efficient as it is the largest organization of its kind.

The work of the Bureau during its first year represents the largest service ever rendered by any nation to the families and dependents of its fighting forces in time of war.

In view of the multitude and infinite variety of difficult details involved it represents probably the most stupendous task ever committed to a public or private organization to perform.

The Bureau of War Risk Insurance today is perhaps the largest business unit in the world.

HIGHEST QUALITY AWARDS

SHORT COURSE POSTPONED TO JANUARY 1, 1919

Columbia, Mo., Nov. 2, 1918.
Dear Sir:—It was announced, a few days ago, that the Short Course in Agriculture at the University of Missouri had been temporarily postponed. It has since been deemed advisable, owing to the continuance of influenza in Columbia and other parts of the State, to defer the opening of the Short Course until the beginning of the second term, January 1st, 1919.

It is hoped, too, that by that time the work on the farms can be got into such shape that a large number of men will find it possible to attend. The course will close on February 28th, which will give ample time to get back home and start the spring work. Since the first term cannot be given, every effort will be made by the University and instructors to make the winter term one of the best and most practical that has ever been given. The urgency of war conditions demands that all the emphasis be placed upon the most practicable means of immediately increasing the crop yields of the country. Whether the war ends or not the food situation is going to be acute, and every effort will be made that the Short Course in agriculture may serve its true purpose in this emergency.

Remember the date—Jan. 1, 1919.

Yours very truly,
F. L. DULEY,
Acting Superintendent of Short Courses.

CARPENTER HEADS WAR SAVINGS

St. Louis, Oct. 30.—Rolla Wells, Governor of the Federal Reserve Bank of St. Louis, has today appointed George Oliver Carpenter, Jr., of St. Louis, Acting Director of War Savings for the State of Missouri. The campaign to be pursued for the next two months will be a very active one and will involve the payment of all unpaid pledges which have been made by citizens of this State and vigorous effort to assist such counties as have not reached their quota in going "over the top."

Greatly Benefited by Chamberlain's Tablets

"I am thankful for the good I have received by using Chamberlain's Tablets. About two years ago when I began taking them I was suffering a great deal from distress after eating, and from headache, and a tired, languid feeling due to indigestion and a torpid liver. Chamberlain's Tablets corrected these disorders in a short time, and since taking two bottles of them my health has been good," writes Mrs. M. P. Harwood, Auburn, N. Y. Obtainable everywhere. (adv)

A NEW EARTH

John, the great seer of Patmos, saw "a new Heaven and a new earth." Ever since his day the human race have been yearning toward that new earth, especially. Many times some portion of earth's peoples have fondly imagined they had attained to it, only to be disillusioned when through the rosy mist of optimism the same imperfect old world emerged.

The latest effort toward a radical change of earth and earth's people is the effort of the Russian Bolsheviks to attain thereto, mainly by a repudiation of all earthly obligation and a throwing down of all responsibilities.

These gentry have, it seems, preached an absolute personal liberty as the ultimate attainment toward perfection in this life. Of a life to some they appear very skeptical.

Their teaching has, however, defeated itself, in that they failed to perceive that there can be no such thing as absolute personal liberty without degenerating into anarchy. That was the inevitable and logical effect in Russia, and it will be the same with any other nation which undertakes to put personal freedom and license ahead of the interests of humanity at large.

Whether or not a stable government will emerge from the chaos into which its masters have plunged poor Russia, it is an impressive object lesson for all free peoples, a lesson that should impress them with the fact that man may have entirely too much freedom for his own good, and that the safest course is to keep close to the old landmarks.
